Rules and Regulations:

Definition of vendor types at the Kent Farmers Market:

Farmers are persons or entities who raise produce (vegetables, fruits, and nuts), herbs, flowers or nursery crops from seed or plants, and care for, nurture, cultivate, and harvest the crops offered for sale at the Market. Beekeepers, egg farmers, poultry growers and fish and/or shellfish growers are considered farmers. **Processors** are persons offering fresh food products (such as meats, seafood's, ciders and baked goods) that have added value to their product through some sort of "hands-on" processing (such as smoked meats & handmade candies, etc.). **Brokers/Produce Resellers** are sellers of fruits and vegetables which cannot be grown reliably or in sufficient quantity, as determined by the Market. Such products will be limited, so as not to compete with "local" farmers' products. **Crafters** are persons who craft with their own hands the products they offer for sale at the Market. A majority of tools and equipment used by the crafter to produce their products must require skills, personal handling and/or guidance by the crafter. No commercial items, no imported items and no second hand items shall be resold by crafters. **Prepared Food Vendors** offer freshly made foods, available at the Market. **Other** are any vendors who do not fit into the above categories.
